

Statement of Deficiencies

1911-K: Hand Washing

Not Met

1911-K: Staff and children shall wash their hands using soap at least at the following times: upon arrival at the center, before preparing or serving meals, before giving medication, after playing in water used by more than one person, after toileting, after helping a child use a toilet or changing diapers, after wiping noses or cleaning wounds, after handling pets and other animals, after playing in sandboxes, before eating meals or snacks, upon coming in from outdoors, after cleaning or handling garbage and anytime hands become soiled with body fluids, such as urine, saliva, blood or nasal discharge.

Finding:

1911-K: Hand Washing: Based on interview(s): On 1/11/18 during a center inspection S5 expressed to the Specialist that while the center had partial access to their water services on 1/2/18 she had to utilize the bleach water solution to sanitize her hands between diaper changes. S5 states that she utilized gloves for each diaper change but failed to wash her hands with soap. The regulation requires that a staff wash their hand using soap and running water after changing diapers.
