

Statement of Deficiencies

1903.C.: Free of Hazards

Not Met

1903.C.: Indoor and outdoor areas shall be free of hazards.

Finding:

1903.C. Based on observations/interview at approximately 1:45 PM, S1 failed to ensure the indoor area shall be free of hazards as specialist observed piles of paper on top of a round table in the area near the back door and piles of boxes, crates, and a plastic storage container full of miscellaneous items located in the classroom near the infant room. These items are accessible to the children. Per S1's statement, the center's roof was replaced the week of 12/21/2021 and she is still re-organizing the center.

Corrective Action Plan: Effective 1/13/2021, S1, Director, stated that she will have the items back in place by Friday 1/15/2021 to ensure this deficiency is not recited.
