Finding:

1901.J.&K.: Based on observations on 1/17/19, items that can be harmful to children, such as medications, poisons, cleaning supplies and chemicals, and equipment, tools, knives and other potentially dangerous utensils, were not kept in a locked cabinet or other secure place that ensures they are inaccessible to children as LS observed an unlocked cabinet in S4 and S5's classroom with a bottle of window cleaner and another bottle of cleaning solution located on a shelf that was accessible to children. LS observed 15 children (ages 3yr to 4yr) in the classroom during the center walk through. LS did not observe S4 or S5 locking the cabinet during the center visit.

LS observed unused plastic grocery bags that were accessible to children in S6 and S7's classroom during the walk through. LS observed S6 and S7 supervising 15 children (ages 3yr to 4yr). LS observed S6 removing the plastic bags during the center visit.
