

Statement of Deficiencies

1711-H: Rest Time - Minimum Child to Staff Ratio

Not Met

1711-H: Rest Time - Minimum Child to Staff Ratios

1. Sufficient staffing needed to satisfy child to staff ratios shall be present on the premises during rest time and available to assist as needed.
2. Children ages one and older may be grouped together at rest time with one staff member in each room supervising the resting children. If two rooms share a common doorway, one staff member may supervise the resting children in both rooms.
3. If the view of the staff supervising the children is obstructed by an object such as a low shelving unit, children shall be checked by sight by staff circulating among the resting children.

Finding:

711-H Based on observations: At naptime, children grouped together for sleeping were not within the sight of the naptime worker and the worker was not checking on children by sight and circulating among the resting children as Specialist observed S6 sitting in the bathroom that connects classrooms numbers 1 and 3. S6 could not see all of the children from where she was seated. Classroom number 1 had 10 (2year to 3 year olds) children sleeping and classroom 3 had 8 (2 year olds) children sleeping.
