1901.J.&K.: Items That Can be Harmful to Children

Not Met

1901.J.&K.: J. Items that can be harmful to children, such as medications, poisons, cleaning supplies and chemicals, and equipment, tools, knives and other potentially dangerous utensils, shall be kept in a locked cabinet or other secure place that ensures they are inaccessible to children.

K. Plastic bags, when not in use, regardless of purpose or use, shall be made inaccessible to children.

Finding:

1901J & K Based on observation on 1/23/2019, items that can be harmful to children were not kept in a locked cabinet or other secure place that would ensure that the items would be inaccessible to children. Specialist observed in classroom#8 that the cabinet located under the sink, had a locking mechanism on it, that was not broken, but failed to be working properly. Specialist and S2 were able to open the cabinet. Specialist observed 1 small green tape packing dispenser with a sharp cutting edge, 1 container of Lysol disinfectant wipes, and 1 can of disinfectant spray. Specialist also observed a small plastic storage box without a lid that contained 1 bottle of Fabulosa, 1 can of Carefree foaming cleaner, and 1 can of Series disinfectant spray. There were no children in the classroom during this inspection; however, all items were in reaching distance of children. S2 removed all items from under the cabinet prior to Specialist departure from the classroom. .
