

Statement of Deficiencies

1515.A.1: Child Records and Cumulative Files

Not Met

1515.A.1: A cumulative file shall be maintained on each child that shall include the following records:

1. An information form signed and dated by the parent and updated as changes occur, that contains:
 - a. name of child, date of birth, sex, date of admission;
 - b. name of parents and the home address of both child and parents;
 - c. phone numbers where parents may be reached while child is in care;
 - d. name and phone number of person to contact in an emergency if parents cannot be located promptly;
 - e. name and telephone number of child's physician, if applicable;
 - f. name and telephone number of the child's dentist, if applicable;
 - g. any special concerns, including but not limited to allergies, chronic illnesses, and any special needs of the child, if applicable;

Finding:

1515.A.1 Based on record review: Staff was unable to locate a file for C1. S1 was unable to provide a cumulative file on C1.

1725-A.-D.: Medication Management Training

Not Met

1725-A.-D.: A. All staff members who administer medication shall have medication administration training.

- B. Whether administering medication or not, each early learning center shall have at least two staff members trained in medication administration.
- C. Such training shall be completed every two years with an approved Child Care Health Consultant.
- D. A licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

Finding:

1725-A.-D. Based on record review:

The provider did not have at least two staff members trained in medication administration whether the early learning center administers medication or not. The provider does not administer medication. The provider has been trying to schedule this training.

1909-G: Infant - Bibs

Not Met

1909-G: Bibs shall not be worn by any child while asleep.

Finding:

1909-G Based on observations: The provider allowed a bib to be worn by a child while asleep. Specialist observed C1 in a crib sleeping with a bib on. This was corrected during visit.
