

Statement of Deficiencies

1723.A.&B.: CPR Certification

Not Met

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

Finding:

1723.A&B: Based on observations and record review at 12:15 PM on 02/03/2021, center staff failed to have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in infant and child CPR through training approved by the department. 1 of 10 staff present, S1, had documentation of this certification. S1 stated she was unaware that the Center did not have enough staff present with CPR.

Corrective Action Plan: Effective 02/03/2021, S1, Staff in Charge, scheduled a class for CPR training for 02/20/2021, for all staff members to take to ensure this deficiency is not cited again.

1723.C.: Pediatric First Aid

Not Met

1723.C.: Pediatric First Aid. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in pediatric first aid through training approved by the department.

Finding:

1723.C: Based on observations and record review at 12:15 PM on 02/03/2021, center staff failed to have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in Pediatric First Aid through training approved by the department. 1 of 10 staff present, S1, had documentation of this certification. S1 stated she was unaware that the Center did not have enough staff present with CPR.

Corrective Action Plan: Effective 02/03/2021, S1, Staff in Charge, scheduled a class for CPR training for 02/20/2021, for all staff members to take to ensure this deficiency is not cited again.
