

## ***Statement of Deficiencies***

### **1725.A.-C.: Medication Management Training**

**Not Met**

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

#### **Finding:**

1725.A.-C. Based on record review: Whether the center is administering medication or not, S1 failed to have at least two staff members currently trained in medication administration. One staff member had this current training. S1 stated, a staff who recently resigned also had the current training.

Corrective Action Plan: S1 stated, she will schedule the training immediately, and she intend to have two staff with current training in Medication Administration by the end of this month (2/29/2020).
