

Statement of Deficiencies

1903.C.: Free of Hazards

Not Met

1903.C.: Indoor and outdoor areas shall be free of hazards.

Finding:

1903.C. Free of Hazards: Based on observations at approximately 12:00pm on 02/09/2021, the center was not free of hazards as Specialist observed one infant, 5 months, asleep in a bouncy chair that was placed in the crib with the mattress on the highest setting. The bouncy chair was not on a steady surface while in the crib and could have been knocked over and caused injury to the infant. Staff corrected prior to Specialist leaving the room.

Corrective Action Plan: Effective 02/09/2021, S1 stated that they will get a note from the infant's doctor to be able to let the infant sleep in a bouncy chair. They will not place the bouncy chair in the crib. Also, they will talk with staff about not putting blankets or bouncy chairs into the cribs.
