Not Met

1711-H: Rest Time - Minimum Child to Staff Ratios

1. Sufficient staffing needed to satisfy child to staff ratios shall be present on the premises during rest time and available to assist as needed.
2. Children ages one and older may be grouped together at rest time with one staff member in each room supervising the resting children. If two rooms share a common doorway, one staff member may supervise the resting children in both rooms.
3. If the view of the staff supervising the children is obstructed by an object such as a low shelving unit, children shall be checked by sight by staff circulating among the resting children.

Finding:

1711-H Based on observations:

S1 did not have the required staffing present in the building during rest time to satisfy child/staff ratio as evidenced by 8 children age one year old and 9 children age 3-4 years old present with one staff (S2). Specialist arrived at Center at 12:35 pm and observed 8 children age one year old and 9 children age 3-4 years old present with one staff (S2). Specialist observed children were napping. Specialist observed one staff member (S3) with three infants ranging in age from 11 months to 12 months. There were no other staff present on the premises. The correct ratios are: infants-5:1; one year olds-7:1; 3 year olds-13:1 and 4 year olds-15:1.
