Finding:

1903-C Based on observations on 2/19/18, the center failed to maintain the outdoor area from hazards, as LS observed at 11:16 am, there were 5 ant piles on the center's playground area. LS observed S31, S32, and S33 supervising (28) children (ages 4 yr - 5 yr) on the playground during the walk through. LS did observe the children leaving the playground area as a precautionary measure and the ant piles were treated during the center visit.
