

Statement of Deficiencies

713.A: Office of Public Health, State Fire, City Fire approval

Not Met

713.A: Current approvals by the Office of Public Health, Office of State Fire Marshal, City Fire (if applicable) and the Licensing Division shall be required before the expiration of an existing license.

Finding:

713.A Based on record review: The Provider lacked documentation of a current annual inspection and approval from State Fire Marshal. The date of the last approval is 2/1/2017. Provider states State Fire Marshall completed inspection at the center on 2/19/2018 and provided center with a current Fire certificate . Provider was not able to locate the current certificate during licensing visit.

1901-O: Alcohol, Tobacco, etc. Prohibited

Not Met

1901-O: The center shall prohibit the use of alcohol and tobacco and the use or possession of illegal substances, unauthorized potentially toxic substances, fireworks and firearms, and pellet and BB guns on the center premises and notice to this effect shall be posted.

Finding:

1901-O Based on observations: The center did not have a posted notice on the premises prohibiting the use of alcohol and tobacco, the use or possession of illegal substances, unauthorized potentially toxic substances, fireworks, firearms, pellet and BB guns .

1909-C: Infants - Positioning Devices

Not Met

1909-C: Infants shall not be placed in positioning devices, unless the center has written authorization from a physician to use a positioning device.

Finding:

1909-C Based on observations: Center Staff failed to have written authorization from a physician to use a positioning device. During inspection of the center at 10:51 am specialist observed (C1) sleep in a positioning. S8 and S9 indicated C1 was sleeping in the device per parents request.

1921-A: Emergency Preparedness and Evacuation Planning

Not Met

1921-A: The director shall consult with appropriate state and local authorities and shall establish and follow a written multi-hazard emergency and evacuation plan to protect children in the event of emergencies that at a minimum shall:

1. address any potential disaster related to the area in which the center is located;
2. include procedures for sheltering in place, lockdown and evacuation to a pre-determined site for potential threats to the safety, health and well-being of children in care;
3. include specific procedures for handling infants through two year olds;
4. include specific procedures for handling children with special needs, including the evacuation and transportation of children in wheelchairs;
5. include a system to account for all children;
6. include a system, and a back-up system, for contacting parents and authorized third party release caretakers;
7. include a system to reunite children and parents following an emergency;
8. include procedures for providing information about the emergency plan to parents at the time of enrollment and when changes occur;
9. be reviewed annually for accuracy and updated as changes occur; and
10. be reviewed with all staff at least once per year.
11. practice drills shall be conducted at least twice per year to include all children and shall be documented.

Finding:

1921-A Based on record review: The provider failed to have a written multi-hazard emergency and evacuation plan to protect children in the event of emergencies that address the following: include procedures for and evacuation to a pre-determined site for potential threats to the safety, health and well-being of children in care;include specific procedures for handling infants through two year olds;include specific procedures for handling children with special needs, including the evacuation and transportation of children in wheelchairs; include a system to account for all children; include a system, and a back-up system, for contacting parents and authorized third party release caretakers; include a system to reunite children and parents following an emergency;include procedures for providing information about the emergency plan to parents at the time of enrollment and when changes occur; be reviewed annually for accuracy and updated as changes occur; and provider did not have evidence that emergency procedure was reviewed with all staff at least once per year. Provider did not have documentation that practice drills were conducted at least twice per year to include all children.

Statement of Deficiencies

1921-C: Evacuation Pack

Not Met

1921-C: The center shall have an evacuation pack, the location of which is known to all staff, that at a minimum shall contain:

1. a list of area emergency phone numbers;
2. a list of emergency contact information and emergency medical authorization for all enrolled children;
3. an emergency pick up form;
4. first aid supplies, hand sanitizer, wet wipes, and tissue;
5. diapers for children who are not toilet trained and plastic bags for diapers;
6. a battery powered flashlight and radio and batteries;
7. food for children under the age of 4, including infant food and formula; and
8. disposable cups and bottled water.

Finding:

1921-C Based on observations: The center failed to have food for children under the age of 4 in their evacuation pack.
