

Statement of Deficiencies

1903.C.: Free of Hazards

Not Met

1903.C.: Indoor and outdoor areas shall be free of hazards.

Finding:

1903.C. Based on observations: The outdoor area were not free of hazards as specialist observed a large hole in the ground that extended under that fence on the play yard at the rear of the building. The specialist explained to S1 that the hole could cause a tripping hazard and also was deep enough for a child to crawl under the fence or an animal or creature to crawl into the enclosed space. S1 stated that due to the rain and cold she has not had a chance to get it repaired as of this date.

1903.E.5.: Outdoor - Enclosed

Not Met

1903.E.5.: Outdoor play space shall be enclosed with a permanent fence or other permanent barrier in a manner that protects children from traffic hazards, prevents children from leaving the premises without proper supervision, and prevents contact with animals or unauthorized persons.

Finding:

1903.E.5. Based on observations: Outdoor play space lacked enclosure with complete permanent fence or other permanent barrier in a manner that protects children from traffic hazards, prevents children from leaving the premises without proper supervision, and prevents contact with animals or unauthorized persons. Specialist observed a missing wooden board on the rear corner of the play yard. Specialist also observed that the fence was not nailed completely to the post in the ground. S1 stated that due to the rain and cold she has not had a chance to get it repaired as of this date.
