Finding:

1901.J Based on observation on 3/13/2019, items that can be harmful to children failed to be kept in a locked cabinet or other secure place that ensures that the items would be inaccessible to the children. Specialist observed in S3's classroom, 2 can of Equate Shaving Cream sitting on the counter near the sink where the children wash their hands. In S5's classroom there was 1 pair of adult scissors with a blue handle in an unlocked drawer under the sink/counter area. S1 stated that the scissors belonged to the church. S1 locked up all of the items prior to the Specialist departure from the classroom.
