

Statement of Deficiencies

2101-A.3: Capacity of Vehicle

Not Met

2101-A.3: The number of persons in a vehicle shall not exceed the manufacturer's recommended capacity

Finding:

2101-A.3 Based on record review/interview: The number of persons in a vehicle shall not exceed the manufacturer's recommended capacity. Based on the center's insurance bus schedule viewed on 3/14/17 bus #1131 has a capacity of 15. Specialist reviewed bus log dated 2/21/17-2/24/17. Specialist was advised by S1 that 3 trips are made normally on each day. Specialist was unable to determine if capacity was met due to not being able to determine which children were transported on which trip. It appears that all the children were on the bus at one time based on documentation reviewed (Daily transportation log).
