

## Statement of Deficiencies

### 1723.A.&B.: CPR Certification

Not Met

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

#### Finding:

1723.A: Based on record review/interview: The Provider did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in infant and child CPR through training approved by the department. The Specialist observed that 0 of 0 staff had documentation of this certification. S1, S2, & S4's CPR training expired on 1/7/19. S1 stated the course was full and she will schedule as soon as possible and submit documentation once received.

### 1723.C.: Pediatric First Aid

Not Met

1723.C.: Pediatric First Aid. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in pediatric first aid through training approved by the department.

#### Finding:

1723.C. Based on record review/interview: The Provider did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in Pediatric First Aid through training approved by the department. The Specialist observed that 0 of 0 staff had documentation of this certification. S1, S2, & S4's Pediatric First Aid training expired on 1/7/19. S1 stated the course was full and she will schedule as soon as possible and submit documentation once received

### 1725.A.-C.: Medication Management Training

Not Met

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

#### Finding:

1725.A.-C. Based on record review:

The Specialist observed that the Provider did not have current documentation of training in medication administration completed with an approved Child Care Health Consultant for any staff, present or not present. Training is required every two years and the staff's training expired April 2018. S1 stated a training course will be scheduled immediately.
