

Statement of Deficiencies

1721.A.-C.: Continuing Education Training

Not Met

1721.A.-C.: A. Early learning centers shall provide opportunities for continuing education of staff members who are left alone with children, or who have supervisory or disciplinary authority over children.

1. Staff members of early learning centers, excluding foster grandparents, shall obtain a minimum of 12 clock hours of continuing education per center anniversary year.

B. Staff members of type I, type II and type III centers who are neither left alone with children, nor have supervisory or disciplinary authority over children, shall obtain a minimum of three clock hours of continuing education in job related topics per center's anniversary year.

C. Continuing education for all types of centers shall be conducted by trainers approved by the department. The department shall keep a registry of approved trainers.

Finding:

1721.A.-C. Based on record review/Interview on 04/01/2019, S11 failed to obtain a minimum of 12 clock hours of continuing education per center anniversary year as evidenced by specialist review of center staff clock hours indicate that S11 obtained six hours per the center's anniversary year. Per S1's statement, she is aware that S11 did not have enough clock hours for the year and would begin scheduling classes immediately.

1725.A.-C.: Medication Management Training

Not Met

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

Finding:

1725.A.-C. Based on record review on 04/01/2019, provider failed to have at least two staff members trained in medication administration and at least one on the premises whether the center is administering medication or not as evidenced by 0 of 11 staff presently employed at the center is trained in medication administration. Per S1's statement, she has scheduled all the staff members to take Medication Administration training in May 2019.
