

## ***Statement of Deficiencies***

### **1725.A.-C.: Medication Management Training**

**Not Met**

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

#### **Finding:**

1725.A.-C. Based on record review: S1 failed to have at least two staff members trained in medication administration, whether the center administered medication or not. S1 was the only staff member who had a current medication administration certificate on file in the center. S1 was present during specialist visit on 4/2/19. S1 stated that she was aware the other certificate was expired and has a class scheduled for April 2019.
