4. An average may be applied to a mixed age group consisting only of children ages 5 and older.

Finding:

1711-A-B-D-G Based on observations: The Provider failed to meet the required child to staff ratio for children of the following ages: 11 children ages 1-3 months, 3- 2 years and 7- 3 years with 1 staff, S4. The required ratio for children of this age is 5 children per 1 staff person. Another staff was needed to meet the child/staff ratio. Corrected during the licensing inspection as another staff, S2, who heard specialist discussing child/staff ratio with S4 came from another room with two children ages two years old to help meet the child/staff ratio.

Finding:

1713.A&B&C. Based on observations: Children were not under supervision at all times as specialist observed two children ages one year old in the infant room alone. S1 went to the door and opened the door wider when she observed specialist headed in the direction of the infant room. S1 stated she was supervising the children, however, specialist observed S1 reading to five children upon arrival at the center.
