

## **Statement of Deficiencies**

### **1919.A.&B.: Food Service and Nutrition - Menu**

**Not Met**

1919.A.&B.: A. All meals and snacks provided by the center, and their preparation, service and storage, shall meet the requirements for meals of the U. S. Department of Agriculture (USDA) Child and Adult Care Food Program (CACFP), 7 CFR 226.20, and LAC 51:XXIII.

B. The weekly menu shall:

1. be planned for each day of the week and list the specific food items served;
2. be prominently posted by the first day of each week and remain posted throughout the week; and
3. have substitutions or additions posted on or near the menu.

#### **Finding:**

1919 A&B Based on observations on 04/17/2019, snacks provided by the center failed to meet the USDA requirements as evidenced by the center's April Snack Menu indicates that the only beverage being served is water which does not qualify as an acceptable component for snack. Provider should be serving either 100% juice, 1% milk, or non-fat skim milk as a beverage for all snacks. Per S1, she was told juice could not be served in the center and has been serving water every since but will correct immediately.
