

## Statement of Deficiencies

### 1723.A.&B.: CPR Certification

Not Met

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

#### Finding:

1723.A. Based on recored review: The provider did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in infant and child CPR through training approved by the department. 3 of 7 staff had documentation of this certification.

### 1723.C.: Pediatric First Aid

Not Met

1723.C.: Pediatric First Aid. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in pediatric first aid through training approved by the department.

#### Finding:

1723.C. Based on record review:The provider did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in Pediatric First Aid through training approved by the department. 3 of 7 staff had documentation of this certification.

### 1909.C.: Infants - Positioning Devices

Not Met

1909.C.: Infants shall not be placed in positioning devices, unless the center has written authorization from a physician to use a positioning device.

#### Finding:

1909.C.: Based on record review/observation:Written authorization from a physician was not available for 1 of 1 infants to use a positioning device. Specialist observed C1 sleeping with her head propped-up with a Boppy pillow. S1 stated that C1 uses the pillow due to acid reflux. S1 corrected at the time of survey.
