1507-A: Daily Attendance Records - Children

Not Met

1507-A: A daily attendance record for children shall be maintained that shall:

1. include the child's first and last name, arrival and departure times, and first and last name of person or entity to whom the child is released;
2. accurately reflect children on the center premises at any given time; and
3. be used to sign in and out if a child leaves and returns to the center during the day.

Finding:

1507-A Based on observations/record review/interview(s): The center's daily attendance record for children did not accurately reflect the children on the child care premises at any given time as 37 children were present and 36 children were signed in on the log. S1 stated that one of the children signed in had been picked up already. S1 stated that two other children were new and she'd input them into the computer on today. S1 corrected prior to Specialist departure.
