Finding:

1713-A&B&C Based on interviews and record review: Children were not under supervision at all times per written statements and interviews from S4, S8 and S9. On 5/5/17, S8 stated she left the classroom to take the children ages three years to four years old outside to play. She did not realize that C1 was not with the class until she arrived outside with the children and did not see C1. S9 stated she was inside changing another child's wet clothing in the restroom, and when she went inside the classroom to retrieve the child's bedding is when she discovered C1 in the classroom alone. S4 stated she previously observed S8 to go outside with the children while she was still in her classroom with her children. S4 stated she observed S9 to go in the classroom and come back out with C1 while she was at the restroom with her class. Also per written statement from S10, she observed S8 in the hallway with the children at 3:52pm when she went out the door of the center. When she came back inside the center at 4:00pm, all teachers and children were outside. Based on the aforementioned information, C1 was left unsupervised in the classroom for an unknown amount of time between 3:52pm to 4:00pm.
