

Statement of Deficiencies

1725.A.-C.: Medication Management Training

Not Met

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

Finding:

1725.A.-C. Based on record review: Specialist checked center staff files at 12:00 pm and did not observe at least two staff members trained in medication administration whether the early learning center administers medication or not.

1915.A.: Health Services - Observation

Not Met

1915.A.: Observation. Upon arrival at the center, the physical condition of each child shall be observed for possible signs of illness, infections, bruises or injuries, and when something is observed, it shall be documented and such documentation shall include an explanation from the parent or child.

Finding:

1915.A. Based on record review: Center staff failed to include an explanation from a parent or child upon observing injuries at arrival to the center. Specialist observed an observation form on 6/11/2019 at 12:45 pm dated 5/23/2019, in which injuries were documented with no explanation noted.
