

## **Statement of Deficiencies**

### **1725.A.-C.: Medication Management Training**

**Not Met**

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

#### **Finding:**

1725.A.-C. Based on record review at 4:00 pm, S1 failed to have at least two staff members trained in medication administration whether the early learning center administers medication or not. S1's certification expired 02/19/2021. S2 is the only staff with current certification.

Corrective Action Plan: Effective 06/17/2021, S1 stated she will schedule (she will check dates for classes no later than 06/18/2021) her staff to complete this training during the next available class to ensure this deficiency is not re-cited.
