

Statement of Deficiencies

1915-A: Health Services - Observation

Not Met

1915-A: Upon arrival at the center, the physical condition of each child shall be observed for possible signs of illness, infections, bruises or injuries, and when something is observed, it shall be documented and such documentation shall include an explanation from the parent or child.

Finding:

1915-A Based on interview(s): The provider failed to document when something was observed on a child that included an explanation from the parent or child. S12 stated that around 2:00 pm on 6/11/18 S14 called her into the infant room and showed her a mark on C1's face that she observed upon returning to the classroom from her lunch break. S12 stated that S14 was unaware of any incidents in the classroom that would have caused an injury. S12 stated that she contacted O1 and questioned her in regards to the mark and she stated that she was not aware of any marks or bruises on C1 when she dropped him off to the center. S12 and S14 failed to document the mark/bruise on C1's face on the center's observation report for 6/11/18.
