B: Children shall not be left alone in any room, (except the restroom as indicated in Subsection G), outdoors, or in vehicles, even momentarily, without staff present.

C: A staff person shall be assigned to supervise specific children whose names and whereabouts that staff person shall know and with whom the staff person shall be physically present. Staff shall be able to state how many children are in their care at all times.

Finding:

1713-A&B: Based on observations and interviews: Children were not under supervision at all times as Specialist found that 3 children (ages 5-10 years old) were napping in classroom #1 of building #2. Upon arrival at the facility, Specialist observed S13 in Building #1. Specialist arrived at building #2 and observed S13 supervising a class of 3 children. Specialist inquired with S13 who was in the class in this class while she was in Building #1, S13 stated that S10 was responsible for her class during this time. Specialist inquired with S10 on who was supervising each class during this tie; S10 stated that he was in classroom 2 near the center of the front wall. Specialist found that there is no angle where a staff could stand between classrooms #1 and #2 in and see the children in each class as the children were napping towards the rear of the classrooms. S1 stated that she will adjust this in the future. Specialist observed supervision was met prior to departure.
