

## ***Statement of Deficiencies***

### **1725.A.-C.: Medication Management Training**

**Not Met**

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

#### **Finding:**

1725.A.-C.: Based on observations/record review on 7/14/2021 at 10:30am, S1 failed to ensure that at least two staff members were trained in medication administration, whether the center administers medication or not. S1 is the only staff member trained in medication administration and no other documentation was provided to show another staff member with a completed medication administration training.

Corrective Action Plan: Effective 7/14/2021, S1 stated that she will ensure that medication administration training is completed for a minimum of two staff members. S1 stated that a class is scheduled for July 21, 2021 to ensure this deficiency is not re-cited.
