

Statement of Deficiencies

1725.A.-C.: Medication Management Training

Not Met

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

Finding:

1725.A.-C. Based on record review: There was one staff member, S1, trained in medication administration. S4 was trained in medication administration, but S4's training expired in 7/18. An additional staff member needs to be trained in medication administration. The center does not administer medication. This information was reviewed at 9:20 am. S1 attempted to schedule a class for this training, but there were no classes available.
