Finding:

1711-A-B-D-G Based on observations/interview(s): The Provider failed to meet the required child to staff ratio for children of the following ages: 16 children age 3 through 4 with 1 staff. The required ratio for children of this age is 14 children per 1 staff person. Specialist observed that S9 was supervising a class of 16 children. S9 stated S20 was supervising children with her; however, she did not know where S20 was. S20 entered that classroom a minute later and stated that she left to take dishes to the kitchen. Specialist observed ratio was met prior to departure.
