Statement of Deficiencies

1723.A.&B.: CPR Certification Not Met

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

Finding:

1723.A&B. Based on record review on 7/29/2019, S1 failed to have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children had current certification in infant, child, and adult CPR through training approved by the department. Specialist observed 3 staff on the premises supervising children. 1 of 4 staff present had documentation of this certification. S3 had the current certification. This was not corrected prior to Specialist departure. Deficiency was previously cited during visit conducted on 5/7/2019.

1723.C.: Pediatric First Aid Not Met

1723.C.: Pediatric First Aid. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in pediatric first aid through training approved by the department.

Finding:

1723.C. Based on record review on 7/29/2019, S1 failed to have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children had current certification in Pediatric First Aid through training approved by the department. Specialist observed 3 staff on the premises supervising children. 1 of 4 staff had documentation of this certification. S3 had the current certification. This was not corrected prior to Specialist departure. Deficiency was previously cited during visit conducted on 5/7/2019.
