

Statement of Deficiencies

1909.C.: Infants - Positioning Devices

Not Met

1909.C.: Infants shall not be placed in positioning devices, unless the center has written authorization from a physician to use a positioning device.

Finding:

1909.C. Based on observations/interview(s) on 8/12/19 at 2:55 pm, written authorization from a physician was not available for 1 of 5 infants to use a positioning device as LS observed (1) infant asleep in a positioning device in S2's classroom. S2 stated the infant had just fell asleep. LS did not observe documentation of a written authorization during the center visit. LS observed S2 placing the infant in the crib during the center walk through.

LS provided the center technical assistance in concerns to infant-positioning devices on 6/7/19.
