

Statement of Deficiencies

1715-A.5: State Central Registry

Not Met

1715-A.5: Personnel files for each staff member shall be maintained at the center and shall include the following: documentation of a current, completed state central registry disclosure form indicating no justified (valid) finding of abuse or neglect by the DCFS, or a current determination from the DCFS indicating that the individual does not pose a risk to children.

Finding:

1715-A.5 Based on record review: The center failed to have documentation of a completed state central registry disclosure form (SCR 1) on site and available for review at the center prior to a previously completed form expiring (1705.B). 1 of 6 staff, S2 failed to have documentation of the completed form. S2's SCR 1 form expired 5/17/17. S2 completed an updated form during visit.

1901-J.&K.: Items That Can be Harmful to Children

Not Met

1901-J.&K.: Items that can be harmful to children, such as medications, poisons, cleaning supplies and chemicals, and equipment, tools, knives and other potentially dangerous utensils, shall be kept in a locked cabinet or other secure place that ensures they are inaccessible to children. Plastic bags, when not in use, regardless of purpose or use, shall be made inaccessible to children.

Finding:

1901-J.&K.: Based on observation: In S3's class and S4's class, the Specialist observed two items that can be harmful to children, two aerosol cans of cleaning supplies, were not kept in a locked cabinet or other secure place that ensures they are inaccessible to children.

1911-K: Hand Washing

Not Met

1911-K: Staff and children shall wash their hands using soap at least at the following times: upon arrival at the center, before preparing or serving meals, before giving medication, after playing in water used by more than one person, after toileting, after helping a child use a toilet or changing diapers, after wiping noses or cleaning wounds, after handling pets and other animals, after playing in sandboxes, before eating meals or snacks, upon coming in from outdoors, after cleaning or handling garbage and anytime hands become soiled with body fluids, such as urine, saliva, blood or nasal discharge.

Finding:

1911-K Based on observations: The Specialist observed that the children did not wash their hand with soap as needed before eating lunch.
