

## ***Statement of Deficiencies***

### **1903.C.: Free of Hazards**

**Not Met**

1903.C.: Indoor and outdoor areas shall be free of hazards.

#### **Finding:**

1903.C. Based on observations/interview on 08/19/2019, the outdoor area failed to be free of hazards as evidenced by specialist observed a large pile of unassembled playground equipment that was not made inaccessible to children in the back left corner of the playground. The large pile has a partial fence around it but it is still accessible to children. Per S2's statement, she has spoken with the director who oversees the center and he stated that this will get taken care of. This was previously cited on 05/09/2019. This was not corrected prior to specialist departure.
