#### **Finding:**

1903.C. Based on Specialist's observations on 8/19/19, at 11:00am, the outdoor area was not free of hazards as Specialist observed unsecured/broken PVC pipes surrounding the middle set of playground equipment on the play-yard. This hazard was observed during the two previous licensing visits and cited during the center's annual visit in May 2019. S21 stated that a work order has been placed for repairs to be made to the broken PVP pipes on the play-yard.
