

Statement of Deficiencies

1723.A.&B.: CPR Certification - Infant/Child

Not Met

1723.A.&B.: A. Infant and child CPR. All staff members on the premises of a center and accessible to children shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. All staff members on the premises of a center and accessible to children shall have current certification in adult CPR through training approved by the department.

CPR Certification

Finding:

1723.A. Based on record review at approximately 2:15 p.m., S1 failed to have documentation that all staff on the premises and accessible to the children have current certification in infant and child CPR through training approved by the department.

Corrective Action Plan: Effective 9/1/2022, S1 stated she will create chart to include expiration dates and schedule the training within 30 days to ensure compliance with this regulation.

1723.C: Pediatric First Aid

Not Met

1723.C: C. All staff members on the premises of a center and accessible to children shall have current certification in pediatric first aid through training approved by the department.

Finding:

1723.C. Based on record review at approximately 2:15 p.m., S1 failed to have documentation that all staff on the premises and accessible to the children have current certification in pediatric first aid through training approved by the department.

Corrective Action Plan: Effective 9/1/2022, S1 stated she will create chart to include expiration dates and schedule the training within 30 days to ensure compliance with this regulation.

1725.A.-D.: Medication Management Training

Not Met

1725.A.-D.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one trained staff member on the premises during the hours of operation. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

D. Documentation of current completion of such training shall be maintained by the center and shall be available for on-site inspection, whether as hard copies or in electronic form, upon request by the department.

Finding:

1725.A.-C. Based on record review at approximately 2:37 p.m., S1 failed to have at least two staff members trained in medication administration. Training is required every two years. S1 and S8's training expired on 7/6/2021.

Corrective Action Plan: Effective 9/1/2022, S1 stated she will create chart to include expiration dates and schedule the training within 30 days to ensure compliance with this regulation.
