

Statement of Deficiencies

1719.A.&B.: Orientation Training

Not Met

1719.A.&B.: A. Within seven calendar days of the first day present at the center, and prior to assuming sole responsibility for any children, each staff member shall receive orientation to the policies and practices of the center that at a minimum shall include:

1. child abuse identification and reporting;
2. emergency preparation;
3. licensing regulations; and
4. safe sleep practices.

B. Within 30 calendar days of date of hire, each staff member shall receive orientation to the additional policies and practices of the center that at a minimum shall include:

1. child development;
2. child guidance;
3. learning activities;
4. health and safety;
5. shaken baby prevention; and
6. CPR and first aid, as applicable.

Finding:

1719.A.&B.: Based on record review: Specialist reviewed staff files on 09/05/2019 at 10:30am and found the Center lacked documentation that 2 of 5 staff, S5 and S6, received additional orientation within thirty days of date of hire.

1723.A.&B.: CPR Certification

Not Met

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

Finding:

1723. A.&B.: Based on record review/interview: The Center did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in infant and child CPR through training approved by the department. 1 of 5 staff had documentation of Infant and Child CPR training approved by the Department. Specialist reviewed staff files on 09/05/2019 at 10:30 am and found that 4 staff, S2, S3, S4, and S5, took a course that was not approved through the Department.

1723.C.: Pediatric First Aid

Not Met

1723.C.: Pediatric First Aid. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in pediatric first aid through training approved by the department.

Finding:

1723.C.: Based on record review/interview: The Center did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in Pediatric First Aid through training approved by the department. 1 of 5 staff had documentation of Pediatric First Aid approved by the Department. Specialist reviewed staff files on 09/05/2019 at 10:30am and found that 4 staff, S2, S3, S4, and S5, took a course that was not approved through the Department.

1907.E.2.: Cribs Free of Toys and Other Soft or Loose Bedding

Not Met

1907.E.2.: Cribs shall be free of toys and other soft or loose bedding, including comforters, blankets, sheets, bumper pads, pillows, stuffed animals and wedges when the child is in the crib.

Finding:

1907.E.2. Based on observations: The center's cribs were not free of toys or other soft or loose bedding (including comforters, blankets, sheets, bumper pads, pillows, stuffed animals and wedges) while the child was in the crib as evidence by Specialist observation in the infant room on 09/05/2019 at 9:50am and found an infant asleep in a crib with a loose blanket and a toy.

1911.G.: Pacifier Attached

Not Met

1911.G.: Pacifiers attached to strings or ribbons shall not be placed around the neck or attached to the clothing of a child.

Finding:

Statement of Deficiencies

1911.G. Based on observations: On 09/05/2019 at 9:50am, Specialist observed a pacifier that was attached to strings or ribbons attached to the clothing of a child in the infant room.
