

Statement of Deficiencies

7327-H: Strings and Cords

Not Met

7327-H: Strings and cords (such as those found on window coverings) shall not be within the reach of children.

Finding:

7327-H Based on observations: by specialist during licensing visit on 9/6/12 in which electrical cords and a surge protector connected to the classroom computers were within reach of children. These were observed in S12 and S13's classrooms. The cords were removed from children's reach during licensing visit.

7327-L: Clean of Hazards

Not Met

7327-L: The center and yard shall be clean and free from hazards.

Finding:

7327-L Based on observations/interviews during licensing visit on 9/6/12 in which S1 and S11 confirmed that the fence bolts that C1 ran into on 8/10/12, requiring him to receive emergency medical treatment were a playground hazard because the bolts were within reach of children and did cause harm to a child. Following the accident on 8/10/12, the bolts were covered with a padding so that they are no longer exposed to the children and potentially cause future harm.
