Finding:

1919-A&B: Based on observation/record review: The Center's snacks including their preparation, service and storage, as specified under the Child Care Food Program of the United States Department of Agriculture, were not provided as oatmeal cookies and water was served for afternoon snack. A second component, either vegetable, fruit, meat or meat alternatives, or fluid milk was needed to meet the requirements of two components. Menu substitutions were not posted on or near the menus as water was served instead of juice which is listed on the snack menu for Tuesday.
