

Statement of Deficiencies

1723.D.: Certification - More Than One Building

Not Met

1723.D.: When a center has more than one building, each building shall have at least one staff member present at all times certified in the CPR and First Aid appropriate for the age of the children present in the building.

Finding:

1723.D.: Certification - More Than One Building: Based on observation/record review: The center has four buildings and not at least one staff member present at all times certified in the CPR and First Aid appropriate for the age of the children present in building two. During a walk-through at 11:24am, Specialist observed S9, S10, and S11 present and supervising 10 infants in building two. Specialist completed a review of staff personnel files, and determined neither S9, S10, and S11 had a current certification in infant CPR and First Aid. S1 corrected by placing S4 to assist with supervision in building two.
