

Statement of Deficiencies

1723.A.&B.: CPR Certification

Not Met

1723.A.&B.: A. Infant and child CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR through training approved by the department.

B. Adult CPR. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR through training approved by the department.

Finding:

1723.A.&B.: Based on record review at approximately 12:45pm, S1 did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in infant and child CPR through training approved by the department. 1 of 4 staff had documentation of this certification. During licensing visit, S1 contacted training instructor and scheduled training for 10/13/2020.

Corrective Action Plan: Effective immediately, S1 stated she will create a list with all expiration dates for CPR and place it on the wall in her office to ensure she schedules at least 30 days in advance to avoid being re-cited.

1723.C.: Pediatric First Aid

Not Met

1723.C.: Pediatric First Aid. Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in pediatric first aid through training approved by the department.

Finding:

1723.C. Based on record review at approximately 12:45pm, S1 did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in pediatric first aid through training approved by the department. 1 of 4 staff had documentation of this certification. During licensing visit, S1 contacted training instructor and scheduled training for 10/13/2020.

Corrective Action Plan: Effective immediately, S1 stated she will create a list with all expiration dates for pediatric first aid and place it on the wall in her office to ensure she schedules at least 30 days in advance to avoid being re-cited.
