#### **Finding:**

1903.C. Based on interview(s) at 11:00 a.m., S1 failed to ensure the outdoor play area was free of hazards. On 9/23/2021, during outdoor play at approximately 10:30 a.m., C1, a three-year-old child, was stung by a wasp in the outdoor play area while under the slide of the gym equipment. S1 stated a small active wasp nest was found in a recessed area on the underside of the slide on 9/24/2021.

Corrective Action Plan - Effective 10/26/2021, S1 stated she will have staff check all outdoor play equipment daily for any hazards, including wasp nests, before children are allow to play, so is she is not recited this deficiency.
