#### Finding:

1915.B.&C. Based on record review and interviews, On 9/30/19, Staff, S6 and S12, failed to notify parent immediately after noticing C1 had "redness in an eye." Both staff witnessed C1's red eye and also failed to document the illness. S1 stated she was aware of C1's "stye" condition and did not think it was serious enough to document or notify the parent immediately. S12 first noticed the "red eye" at "approximately 2:15PM," The parent was notified by S6 at pick-up time, 4:10pm based on school's children's attendance record.
