

Statement of Deficiencies

7327-L: Clean of Hazards

Not Met

7327-L: The center and yard shall be clean and free from hazards.

Finding:

7327-L Based on observations:

The yard was not free of hazards as evidence by: specialist observation during licensing visit on 11/5/12 in which 2 landscape timbers, 1 near the large little tykes equipment on the back left side of the playground and the other next to this area surrounding a soft surface area, were observed to be rotted with exposed nails. The nails could potentially harm children if they were to fall on them while playing on the playground. Additionally, the black lining under the large wooden equipment is exposed and could be a potential tripping hazard to children while playing.
