2. Child to staff ratios for children under age two are excluded from averaging.
3. When a mixed age group includes children younger than age two, the age of the youngest child determines the child to staff ratio for the group.
4. An average may be applied to a mixed age group consisting only of children ages 5 and older.

Finding:

1711-A-B-D-G: Child to Staff Ratio: Based on observations: On 11/8/17 during the inspection the center failed to meet the required child to staff ratio for children of the following ages: 1 and 3 y/o children. (5) 1y/o and (19) 3 y/o children were with 1 staff. The required ratio for children of this age is 7 children per 1 staff person for 1 y/o and 13 children per 1 staff for 3 y/o. Children under the age of 2 y/o do not qualify for a mixed age group ratio which mean that there should have been 3 staff present with the (24) 1 and 3 y/o in S2's classroom. The center corrected the ratio when S5 returned to the room from outside and S6 returned to the room from the restroom.
