

Statement of Deficiencies

1723-A.&B.: CPR Certification

Not Met

1723-A.&B.: Infant and child CPR - Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in infant and child CPR.

Adult CPR - Fifty percent of staff members on the premises of a center and accessible to children, or at least four staff on the premises and accessible to children, whichever is less, shall have current certification in adult CPR.

Finding:

1723 A & B Based on record review: The Provider did not have documentation that at least fifty percent (50%) of all staff on the premises and accessible to the children or at least four staff on the premises and accessible to children, whichever is less, have current certification in infant and child CPR. 3 of 4 staff's CPR certification had expired in 10/2016.

1725-A.-D.: Medication Management Training

Not Met

1725-A.-D.:

- A. All staff members who administer medication shall have medication administration training.
- B. Whether administering medication or not, each early learning center shall have at least two staff members trained in medication administration.
- C. Such training shall be completed every two years with an approved Child Care Health Consultant.
- D. A licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

Finding:

1725 A-D Based on record review: The provider did not have at least two staff members trained in medication administration whether the early learning center administers medication or not. The Center does not administer medication.
