

Statement of Deficiencies

1903.C.: Free of Hazards

Not Met

1903.C.: Indoor and outdoor areas shall be free of hazards.

Finding:

1903.C. Based on observations:

The indoor area was not free of hazards as the front room of the center where the children gather in the morning before going to the classrooms has three areas where the sheet rock is broken and pieces are loose. The Director said they were in the process of repairing the area.

There was one electrical outlet in the one year old room that was exposed. This was corrected during the licensing visit.
