

Statement of Deficiencies

1915.B.&C.: Health Services - Parental Notification

Not Met

1915.B.&C.:

B. Reporting. Incidents, injuries, accidents, illnesses, and unusual behavior shall be documented and reported to the parent no later than when the child is released to the parent or authorized representative on the day of the occurrence.

C. Immediate Notification. The parent shall be immediately notified in the following circumstances:

1. blood not contained in an adhesive strip;
2. head or neck or eye injury;
3. human bite that breaks the skin;
4. animal bite;
5. impaled object;
6. broken or dislodged teeth;
7. allergic reaction skin changes (e.g. rash, spots, swelling, etc.);
8. unusual breathing;
9. symptoms of dehydration;
10. temperature reading over 101° oral, 102° rectal, or 100° axillary; or
11. injury or illness requiring professional medical attention.

Finding:

1915.C Based on record review/ interviews on 12/04/2019 at approximately 3:00 PM, S8 failed to make immediate notification to O1 when C1 fell and hit his head on the classroom table as evidenced by the center's incident report dated 11/16/2019 indicates that the incident occurred at 10:30 AM; however, O1 was not notified by S8 until 2:15 PM.

Corrective Action Plan: S1 stated that S8 received a write-up on 11/7/2019 for the untimely notification to O1 and has been re-trained along with all the staff members in the center regarding notifications to parents when an incident occurs. S1 stated that this regulation is addressed in each staff meeting that is held every three months. S2 stated that she is also checking each incident report written by to staff ensure that parents are notified timely.
