Not Met

1509.A.8.a.&b.: Behavior Management Policy

Each center shall develop and implement a written behavior management policy describing the methods of behavior guidance and management that shall be used at the center.

The behavior management policy shall prohibit children from being subject to any of the following:

- ii. verbal abuse, which includes but is not limited to using offensive or profane language, telling a child to "shut up", or making derogatory remarks about children or family members of children in the presence of children;
- iii. the threat of a prohibited action even if there is no intent to follow through with the threat;
- iv. being disciplined by another child;
- v. being bullied by another child;
- vi. being deprived of food or beverages;
- vii. being restrained by devices such as high chairs or feeding tables for disciplinary purposes; and
- viii. having active play time withheld for disciplinary purposes, except timeout may be used during active play time for an infraction incurred during the playtime.

Finding:

1509.A.8.a.&b.i. Based on interviews, S6 used a prohibited type of behavior management, as evidenced on 11/13/18, at 11:20am: a 3 year old child ran from S6 during a fire drill. Based on Specialist's individual interviews of 5 (S3, S4, S23, S24, and S25) of 6 staff who saw the entire incident and also wrote statements, S6 caught up with the child and reached for him, the child went down to the ground; then S6 yanked the child's arm, pulling him from the ground. The early learning center's Behavior Management policy, which Specialist viewed, does prohibit this type of discipline.
