

Statement of Deficiencies

713.A.: Office of Public Health, State Fire, City Fire Approval

Not Met

713.A.: Annual licensing inspections by the department, current approvals by the Office of Public Health, Office of State Fire Marshal, and city fire (if applicable), and academic approval by the department (if type III center) shall be required before the expiration of an existing license. However, if a center has documentation establishing that the center requested an inspection by the Office of Public Health or the Office of State Fire Marshal prior to the expiration of the existing license, these approvals may be submitted to the department within 90 calendar days of the date of the license renewal.

Finding:

713.A. Based on record review/observations: The Specialist observed that the center lacked documentation of current documentation of approval from State Fire Marshal. The date of the last visit was 12/3/18 that documented a deficiency.

1507.A.: Daily Attendance Records - Children

Not Met

1507.A.: A daily attendance record for children shall be maintained that shall:

1. include the child's first and last name, arrival and departure times, and first and last name of person or entity to whom the child is released;
2. accurately reflect children on the center premises at any given time; and
3. be used to sign in and out if a child leaves and returns to the center during the day.

Finding:

1507.A. Based on observations/record review:

The center's daily attendance record for children did not accurately reflect the children on the child care premises at any given time as the Specialist observed 25 children were present and 23 children were signed in on the log.

1725.A.-C.: Medication Management Training

Not Met

1725.A.-C.: A. All staff members who administer medication shall have medication administration training.

B. Whether the center is administering medication or not, each early learning center shall have at least two staff members trained in medication administration and at least one on the premises. A staff member who is a licensed practical nurse (LPN) or registered nurse (RN) with a valid nursing license shall be considered to have medication administration training.

C. Such training shall be completed every two years with an approved child care health consultant.

Finding:

1725.A.-C. Based on record review: The Specialist observed that center did not have at least two staff members trained in medication administration whether the early learning center administers medication or not. S1 stated a training class has been scheduled for next week.
